**ANNEXURE: MANAGED DISCRETIONARY ACCOUNT FEES AND OTHER COSTS**

Did you know? Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features, such as investment performance or use of an MDA Service, justify higher fees and costs.

To find out more: If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The following information shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the funds and assets held in your MDA.

Additional explanation of fees and costs

Management Fee

The Management Fee is calculated based on the Net Portfolio Value at the end of the month and accrues daily between such dates. It is deducted the following month.

When you close your account, the Management Fee will be calculated on the Net Portfolio Value at the closure date on pro-rata basis and deducted from the account prior to the account closure being processed and finalized.

The fee is quoted inclusive of GST.

Performance Fee

A Performance Fee is payable in addition to the Management Fee.

Performance Fees are payable in arrears on the last business day of the month and will accrue daily between such dates. It is deducted the following month.

A High Water Mark is applied to the Performance fee to ensure that any negative performance is recouped before another Performance Fee is charged.

This means that the Performance Fee will not apply to any month in which a trading loss is sustained and such a loss will have to be recovered before the Performance Fee is again applied.

The fee is quoted inclusive of GST.

Transaction fees

As part of the MDA Service you will be charged Transaction Fees each time the Nominated Adviser trades on your behalf (ie. buys or sells a financial product for you).

Sanlam Private Wealth and Walker Capital (through the Third Party Service Provider) will arrange, as authorised by you, for brokerage, commission or transaction fees (ie. in the form of a spread mark-up or a rebate on the spread margin) to be debited from your account when a transaction has been completed in consideration for services rendered.

These costs will depend on the frequency of trading within the MDA, which is determined by the investment strategy included in the Investment Program.

Full details of brokerage, commission or transaction fees (ie. in the form of a spread mark-up or a rebate on the spread margin) payable by you is outlined in the Client Agreement entered into between the Third Party Service Provider and you.
